

08 April 2011

To whom it may concern,

This letter serves to confirm that we, World Net Logistics (Pty) Ltd., utilise J2 Software as our preferred supplier for our MimeCast Mail Management solution.

J2 Software investigated and researched our e-mail environment extensively before proposing the MimeCast solution. The implementation of the service took place without any issues and we have subsequently been running on the solution since July 2010.

J2's knowledge on this solution is incredible and any requests we have had to date have been addressed within an extremely reasonable time-frame.

J2 Software have also attended to some custom work regarding my environment and delivery of e-mails to multiple e-mail servers.

I am very happy with the MimeCast solution and immeasurably happy with the after sales service provided to J2 Software.

I would, without reservation, recommend J2 Software to any company looking to implement e-mail management.

You are more than welcome to contact me directly, on the details below, should you wish to discuss any of the above in further detail.

Kind regards,  
Mark
